

# CLEANTECH CAREER NIGHT

February 1, 2011 6:00PM

USC Davidson Conference Center

3415 S. Figueroa Street Los Angeles, CA 90089

Connecting LA's brightest business and engineering students with leading clean technology companies

Cleantech Career Night is a collaboration between Caltech, UCLA, USC, and CleanTech LA with the goal of connecting LA's brightest business and engineering students with leading clean technology companies. Attending students will be pre-screened and are seeking part-time internships during the academic year, summer internships, and full-time positions.

### Format of the evening

Following a hosted reception and short welcoming remarks, each presenting employer will provide a two-minute introduction about their company, their available positions and what they look for in good candidates. Students will then have an opportunity to move between company representatives' tables to learn more about specific companies and their opportunities.

### Registration

Employers (includes 2 staff per company)	\$100
Students	FREE

Register online at:

<http://cleantechla.eventbrite.com>

CleanTech LA brings together business, government, and academia to grow the cleantech sector in Los Angeles, promoting sustainability and economic growth.

Connecting LA's cleantech professionals to business opportunities through networking and educational events, CleanTech LA introduces innovators to investors, professors to policy makers, dreamers to doers, and everything in between.

By telling LA's cleantech story to the world, CleanTech LA promotes Los Angeles as the greenest big city in the United States, a center for cleantech research and innovation, and a creative capital where ideas for a sustainable economy find the support they need to make an impact.

Supporting collaborative research and technology commercialization, CleanTech LA builds on the talents of LA's three world class universities – UCLA, USC, and Caltech – to develop an innovation pipeline that will produce the jobs of the future.
